Thirty five over years of design qualitative summary and still very much focused on maintaining its prowess - a never ending passion - excellence in design. RGaudiel Corporation continues its journey on being a multi - national and multi - level entity in the field of design and planning, adhering to globalization as its ultimate goal.

The Corporation positions its alliance internationally, challenged by the needs and potentials of countries within each region. Incepting experiences and capabilities from master planning - structure designs - interior intricacies unto administrative project management.

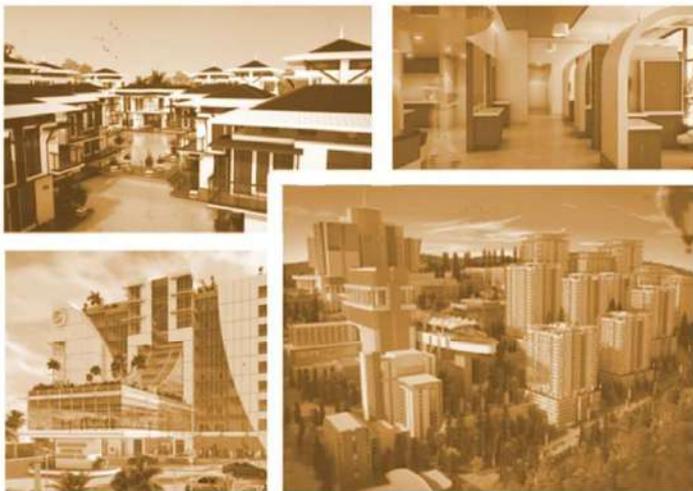

RAW BEGINNINGS-CONCEPTUAL DESIGN SKETCHES / INITIAL MASSINGS

We are here not to simply delineate your ideas unto visuals. We are here to be with YOU all the way in the transition of your very own ideas, concepts, dreams, and aspirations towards realization. It all starts from ideas and sketches.

CONCEPTUAL DESIGNS UNTO MANUAL DELINEATIONS

Whilst the world evolves rapidly on the IT and computer age, thus the basics of hand sketching and rendering is thought to be a thing of the past. We have kept it alive and will continue to do so for the years to come-simply because we believe that it is indeed the basis and basics-though aged -but a priceless and a creative inherent called-"Natural".

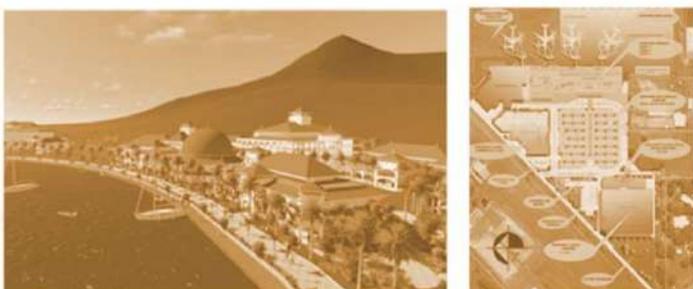

ARCHITECTURAL CONCEPTUAL DESIGNS & DELINEATIONS

Knowledge, experience and understanding plus passion and attitude toward the complexities of the architecture world that we have built into the practice and services that reflects, spells and paints a thousand colorful pixels on our end concepts and creations.

INTERIOR CONCEPTUAL DESIGNS & DELINEATIONS

The fast-tracked changing times of the globe today dictates the quick transition trends and styles of the interior design world. It therefore requires quick response and adaptability for designers and visualizers to catch the moving trend and be on the bandwagon. Our team is on board that bandwagon.

LAND-USE / MASTER PLANNING CONCEPTUAL DESIGNS & PRESENTATIONS

Experience and understanding the various key elements in Land-use and Master Planning are qualities we carry through years of exposure in the ever changing global economic trends and needs.

RGaudiel Corporation have the ability to seamlessly integrate the realms of design, architecture, engineering, and craftsmanship into every project we undertake. Our team of dedicated professionals brings together diverse expertise and a shared passion for innovation to deliver exceptional results. From the conceptual stages through to completion, we leverage our collective knowledge to create spaces that not only meet but exceed our clients' expectations. Behind every RGAudiel Corporation project lies a commitment to meticulous craftsmanship. This dedication to quality craftsmanship ensures that each completed project is not just a building, but a testament to our pursuit of excellence. Join us in celebrating the synergy of design, architecture, engineering, and craftsmanship, where innovation meets precision to bring visionary concepts to life.

THE VISIONARY

RONALDO SANCHEZ GAUDIEL

RGAUDIEL CORPORATION - PRINCIPAL

Imagineer, Designer, Planner, and Entrepreneur
Alliance Integration Director

Leading the team and the alliance is a seasoned conceptual designer and entrepreneur, who received his technical education from Silliman University in the Philippines and the CCP College of Architecture, also in the Philippines. He earned a Bachelor of Science in Architecture degree in 1985.

He began his career (circa mid 80's) as a Planner and Designer at PDM (Malaysia) Snd. Bhd. - an Urban Planning and Master planning firm under the auspices and guidance of Master Planner Lee Kim Siem - a known master planner alongside with the Technical Team incepting the urban planning and modernization of Singapore.

Later joined Chan & Shahrman Architects as a Project Architect, Design Architect and Site Architect for various government projects and notable private project as Renaissance Ramada Hotel in Sandakan, Sabah, Malaysia.

Onwards during the peak of the Southeast Asian "Tiger Cubs" era around 1992, Malaysia faced a shortage of technical staff in the fields of architecture and development. In response, RSG

Partners was established to address this gap and provide backup technical support to architects and developers. Over the years, the firm has played a significant role, supporting many architects, developers, and entrepreneurs with technical assistance, conceptual design, and presentation services.

With a desire to broaden his experience and knowledge, he moved to the USA in December 2002, where he quickly secured a position as a Senior Designer with Steelman Group in Las Vegas, followed by a role as Senior Designer/Senior Project Manager at Carpenter, Sellers, Del Gatto.

In 2006, he founded RG Concepts Designs in Las Vegas. Over the years, the firm has served prominent clients such as Wynn Design and Development and has formed alliances with firms like W. Morris Architects, RS Sherman Architects, and EM Architects, among others. Had the privilege to work side by side with JVA Designs under the leadership of James Veltman - a renowned master planner for The Woodlands in Houston Texas, and Summerlin in Las Vegas, Nevada, USA. Concurrently, is having the RGAudiel Corporation based in Clark, Angeles City, Philippines extensively master planning communities under The Hausland Development Corporation.

Integrating the Alliance from East to West adopting the very concept of globalization for the last 30 over years. Ron runs on a very vast experience with an expertise not only on international standard practices and usages but equally on understanding the very core of vernacular design on most regions of the east and west. Multi-level skills and experience on multi-level projects and practice from Malaysia, The USA, South America, The Pacific Rim, The Middle East, China, Singapore and the Philippines. Ronnie Gaudiel - a "Gamechanger" continuously adheres and is very much dedicated to the very principle the firm was founded on: Quality, Delivery Conscious, Client's Satisfaction and Long-term Relationship.
